Subject: Dimock Update (1430 hrs., 3/2/12)
Date: 03/02/2012 03:01 PM

The OSC reported that EPA's and ATSDR's meeting last night with a resident was a cordial conversation, focusing on health concerns associated with arsenic exposure. The resident also inquired about the schedule for their well data. Cabot is already providing alternate water to this resident.

The site team is mobilizing back to the site on Sunday, 3/4/12, to resume sampling on Monday, 3/5/12. Four homes are currently scheduled (2 Monday, 2 Tuesday), with at least one more to be scheduled during the week.

Delivery of alternate water continues.
